Hi Jeannie, Joe, George,

Draft 5 of Field Data Report has been uploaded to SharePoint in Folder PO- Data Report, DRAFT5 (four files):

1. **Main report (in WORD with Track-changes):** Your comments provided for Draft4 of the report were addressed as track-changed edits and as flagged text in the text and as Responses after the Comments on the margin of the report (Responses are flagged in Yellow) These responses in the report also pertain to the comments in your email text below. Comments from the *previous* Draft3 were kept in the report in case of need; those comments were then flagged in Turquoise; they had been addressed in Draft 4. Note that Section 2.4.2 was expanded and a new table was added (Table 2.8). Please advise if you have further edits/tweaks.
2. **Main report (as pdf *without* Track-changes and without highlights):** This file would be ready for transmission to the Coop Agencies (if you have no further comments) (15mB).
3. **Appendices 1-8** (as pdf) – no changes from Draft 4.
4. **Appendices 9-13** (as pdf) – no changes from Draft 4.

A reduced version (<10 mB) of the pdf file of the Main report (2) will be sent by 9:30am tomorrow morning (unless we have additional edits/tweaks before that).

Bernward/Jim

Subject: RE: ELIS: Modeling report (Draft 2)

Hi Bernward:

Thank you for resolving the comments.

I do still have some additional comments on version4 of the Phys o data report see below:

Please reply immediately and edit accordingly.

Ex. 5 - Deliberative Process

Thanks, I will be moving on to the modeling report next.

Ex. 5 - Deliberative Process

Ex. 5 - Deliberative Process

the following:

1) overall for track changes responses, please make sure that track changes are highlighted so that I can see the addition or deletion. I know with various versions, sometimes it is accepted and in this case, some of your additions were not in track changes.

Subject: ELIS: Modeling report (Draft 2)

Hi Jeannie, Joe, George,

Draft 2 of Modeling Report has been uploaded to SharePoint: Task 6 – Modeling Report – Draft 2. The report contains the main text and the appendices. Changes are tracked in the WORD file; comments are responded to within the document using green flags. There is also a ‘clean’ pdf version.

The report in WORD (*without* the Appendices) is also attached to this email for convenience.

Please advise if you have any further comments or questions.

Best Regards,

Bernward/Jim
